

Enforcement Actions Issued between 01/01/03 and 12/31/03

Enforcement Actions are the documents issued to violators that spell out the details of one or more alleged violations, any steps needed to correct them, any penalties, and the schedules for compliance and/or penalty payment.

Enforcement Actions may be informal notices or formal documents recognized by the courts. Enforcement actions can address multiple violations of varied regulations over time but are typically limited to a single program's concerns from a single compliance evaluation at a single site. Enforcement Actions are counted on the date they are made effective, most often this is the date of receipt by the violator.
