

# Details of Sites Participating in a Particular Stewardship Activity

## 21) Environmental Enhancement Projects

(sorted by Site Name)

The New Jersey Department of Environmental Protection provides stewardship information in order to acknowledge and therefore encourage voluntary actions that result in a positive benefit to the environment.

**Results as of 02/02/2012**

**Number of Sites: 97**

NOTES: (1) DATA - Regulated sites are surveyed about stewardship activities in 21 possible categories addressed in checklist questions numbered 3 to 23. Sites surveyed prior to the report date may not be listed here due to ongoing review related to site complexities. When review is complete a certificate will be issued to the site and it will be listed in the next published report. (2) SOURCE: The information in this report was recorded by enforcement personnel as part of compliance assurance activities. Ensuring compliance remains a primary function of DEP staff who collect the data. Compliance concerns do not automatically disqualify a site from receiving recognition for stewardship, but the Department reserves the right to exclude habitual or egregious violators. Full results of DEP compliance assurance activities including any non-compliance can be accessed through separate reports found here: [http://datamine2.state.nj.us/dep/DEP\\_OPRA/EnfActivityDetails.htm](http://datamine2.state.nj.us/dep/DEP_OPRA/EnfActivityDetails.htm) (3) DATA QUALITY/VALIDITY: Limitations on the investment of resources to verify and document stewardship means that the level of confidence in stewardship information is lower than that for compliance information which must support cases before a court of law. The Department may take under advisement input from third parties regarding the validity or accuracy of stewardship information at listed sites. Email concerns to [stewardshipdata@dep.state.nj.us](mailto:stewardshipdata@dep.state.nj.us). Messages should identify the report, site name and ID, and specific data elements in question as well as the basis for concern or disagreement. Site representatives with concerns about their own data should report these first to their inspector.

**Stewardship Activity:** 21) ENVIRONMENTAL ENHANCEMENT PROJECTS - Has the site undertaken an Environmental Enhancement Project that has resulted in the reclamation or improvement of land at the site or within the community? If yes, identify the project and the resulting improvement to the environment.

222834	169553	DELAWARE RIVER JOINT TOLL BRIDGE COMM	110 WOOD ST, MORRISVILLE, PA 19067	5/28/2009	Ongoing tree planting program at toll bridge facilities
25201	14782	DREW UNIVERSITY	36 MADISON AVE, MADISON, NJ 07940	1/31/2012	Drew Forest Habitat Restoration Project - Drew University has restored a natural ecosystem on approx. 18 acres of forest and wetland habitat on the university campus. The restoration program had three components: 1) extensive removal of non-native invasive species, 2) erection of a 10 ft high deer enclosure fence surrounding the 18 acres, and 3) planting of 1300 native trees and shrubs. In addition, a second project, located in the center of the campus involved conversion of a lawn area to native plantings. Over 5000 native plants from 70 native species including 40 types of wildflowers, 12 shrub species and most of the region's upland ferns have been planted to form a lush, complex and diverse natural ground layer, which has resulted in restoration of a functioning ecosystem and protection of imperiled species.
SO0008	49113	DUKE FARMS FOUNDATION	80 RT 206, HILLSBOROUGH, NJ 08844	1/6/2009	There are several landscapes/habitat types currently being regenerated at Duke Farms. Link: <a href="http://www.dukefarms.org/page.asp?pagelid=559">http://www.dukefarms.org/page.asp?pagelid=559</a>
4006PS	82423	DUNDEE CANAL	CHEEVER AVE, CLIFTON CITY, NJ 07011	2/5/2008	Dundee Water Power & Land Company recently constructed a park for the City of Garfield on the eastern side of Dundee Dam.
44786800 003	23846	EASTERN CHRISTIAN MIDDLE SCHOOL	518 SICOMAC AVE, WYCKOFF, NJ 07481	11/19/2009	A school garden has been built as part of a school beautification/environmental enhance project.
287290	36640	EASTERN CONCRETE MATERIALS CO	201 RT 539, BARNEGAT, NJ 08005	11/18/2011	Facility has deed restricted 112 acres of its property for the habitat of the northern pine snake, Pituophis melanoleucus
190654	61787	ELK TWP MUNICIPAL BUILDING	667 WHIG LANE RD, MONROEVILLE, NJ 08343	5/12/2008	Elk township has a newly established environmental commission, that since inception has created a nature trail on unused township property, established a tree ordinance, and implemented a clean fill dirt program.
190660	143909	EMERSON BORO	MUNICIPAL PL, EMERSON, NJ 076301166	1/14/2009	The Borough of Emerson has remained a Tree City designation.
190660	143909	EMERSON BORO	MUNICIPAL PL, EMERSON, NJ 076301166	3/5/2008	The Borough of Emerson has been designated a tree city since 2005. <a href="http://www.arborday.org/programs/treeCityUSA/map.cfm">http://www.arborday.org/programs/treeCityUSA/map.cfm</a>
NJD00214 4145	14467	ETHICON INC	RT 22 W, BRIDGEWATER TWP, NJ 088760151	7/8/2008	Environmental Enhancement Projects include: Ethicon employees in coordination with the Upper Raritan Watershed Assoc.planted 100 native shrubs in a nature preserve.
78080	15856	EXELON GENERATING CO @ OYSTER CREEK NUCLEAR GENERATING STATION	741 RT 9, FORKED RIVER, NJ 08731	4/28/2008	Oyster Creek has sponsored the following projects: - Donated over \$310,000.00 to Natural Resource Education of the Lighthouse Center in Waretown, NJ for Terrapin and Sea Turtle Studies, trail creation, learning station creation and various educational programs.

197668	43437	FRANKLIN TWP MUNICIPAL BUILDING	475 DEMOTT LN, SOMERSET, NJ 08873	6/10/2008	Franklin Township has been designated as a Tree City by the National Arbor Day Association <a href="http://www.franklintwpnj.org/tree_city_0408.html">http://www.franklintwpnj.org/tree_city_0408.html</a>
NJR000020495	18269	GENZYME BIOSURGERY	1125 PLEASANTVIEW TER, RIDGEFIELD, NJ 07657	3/31/2009	The following examples over the past 3 years highlight Genzyme's commitment to community outreach on the environment through environmental stewardship activities. On Friday, March 28th 2008, Genzyme Biosurgery volunteers and members of the Meadowlands Conservation Trust, Ridgefield Environmental Commission, and New Jersey Meadowlands Commission performed a creek clean-up event at Skeetkill Creek Marsh in Ridgefield. The goal was to remove floatable debris from the banks of the creek. On April 20th Genzyme employees participated in an Annual Earth Day Event sponsored by the Bergen County Soil Conservation District. This Bergen County Parks Erosion Control Project took place at Glen Rock Park in Glen Rock, New Jersey. Other organizations that participated were Master Gardeners Association, Bergen County Utilities Authority (BCUA), and United Water. Planting of 600 silky dogwood seedlings were performed by approximately 70 volunteers (stewards) in all. This is a great event every year. The Bergen County Executive ? Dennis McNerney was also present at this event. In honor of Arbor Day, which took place on April 27th 2007, Genzyme Biosurgery donated 100 white pine seedlings for the event and for volunteers to take home. The White Pine Seedlings were received from the New Jersey Forest Service as part of their Arbor Day celebration specials. On May 3rd, 2007 Genzyme Biosurgery (Ridgefield, NJ) co-hosted the 2nd Annual Skeetkill Creek Clean-up event with the Hackensack Riverkeeper Inc. Members of the Hackensack Riverkeeper Inc (Part of the International Riverkeeper Alliance), Capt Bill Sheehan ? The Hackensack Riverkeeper, New Jersey Meadowlands Commission, Ridgefield Environmental Commission, The Honorable Mayor of Ridgefield Boro ? Mayor Anthony Suarez, and Tina Schvedja ? Executive Director of the Meadowlands Conservation Trust were all present for Genzyme Biosurgery's Creek Clean-up event. Employees from our sister facility ? Genzyme Genetics, New York City joined in this year's Creek Clean-up event. 53 Employees from Ridgefield and 11 employees from Genetics in NYC participated. Note: in November 2007 Skeetkill Creek Marsh will be preserved for perpetuity through the Meadowlands Conservation Trust. Regular maintenance of the creek embankments over time will be performed by Neighborhood Landscaping Corp. and by Genzyme Biosurgery stewardship events. On Friday, April 21st, 2006, twenty Genzyme Biosurgery employees participated at an Earth Day Celebration event which included planting of silkwood bushes along a riverbank at the

PI Number	Site ID	Site Name	Address	Date Acknowledged	Comments
					Saddle River County Park - the Otto Pehle Park Area as part of the "Erosion Control Project." The event was hosted by the Bergen County Soil Conservation District and the Bergen County Environmental Council, which Genzyme Biosurgery ? Ridgefield site, is a member of as of March 2006. Skeetkill Creek is a 16 acre wetlands area located across the street (Pleasant View Terrace) from Genzyme Biosurgery. Genzyme maintains a lookout area which is open to our employees and to the public. The creek is part of the Hackensack River Watershed. On Friday, April 28th, 2006: ?Skeetkill Creek Clean-up, Canoe Rides, and Native Seedling Planting FISH Event.? Sixty (60) Genzyme volunteers helped with the planting of native wetland plants in different areas of the Skeetkill Creek. Employees helped by paddling canoes and cleaning up in parts of the area including nature trail. A number also helped to remove a 7 foot diameter tractor tire from the creek (a 3 hour effort)
46392	37477	GLOUCESTER CITY	512 MONMOUTH ST, GLOUCESTER CITY, NJ 08030	11/19/2009	Community Forestry Mgmt Plan approved 2007. Since the fall of 2005, city has planted trees.
46392	37477	GLOUCESTER CITY	512 MONMOUTH ST, GLOUCESTER CITY, NJ 08030	5/14/2008	Community Forestry Mgmt Plan approved 2007. Since the fall of 2005, city has planted trees.
197981	149958	GREEN BROOK TWP	111 GREENBROOK RD, GREEN BROOK TWP, NJ 08812	5/29/2008	Annual Stream Clean up of the Green Brook performed as a part of Volunteer Day.
201972	182100	HASBROUCK HEIGHTS BORO	320 BOULEVARD , HASBROUCK HEIGHTS, NJ 07604	9/7/2011	Designated a Tree City for 14 + years.
201972	182100	HASBROUCK HEIGHTS BORO	320 BOULEVARD , HASBROUCK HEIGHTS, NJ 07604	3/4/2009	The Borough of Hasbrouck Heights has been designated a Tree City for at least 14 years.
201972	182100	HASBROUCK HEIGHTS BORO	320 BOULEVARD , HASBROUCK HEIGHTS, NJ 07604	3/27/2008	The Borough of Hasbrouck Heights has been designated a Tree City for at least 13 years.
221972	148045	HUNTERDON CNTY	RT 12, FLEMINGTON, NJ 08822	6/18/2008	Hunterdon County in conjunction with Soil Conservation Services replaced an eroded drainage area in Cold Brook Reserve (Tewksbury Township) with a wetland water quality pool.
NJD00214 4202	83183	JANSSEN PHARMACEUTICAL CO OF J&J	1000 RT 202, RARITAN BORO, NJ 08869	5/17/2011	Facility has a comprehensive biodiversity plan to improve flora on site. Completed projects maintained at the site include installation of bluebird boxes and approximately 1 acre of native species grasses and a nature trail.
25165	14304	JNBC ASSOC	100 JEFFERSON RD, PARSIPPANY-TROY HILLS TWP, NJ 07054	8/14/2008	McNeil has an annual program where employees volunteer their time to help clean and preserve existing open spaces in their community. In 2007, 29 employees went to the Great Swamp in Morris County and helped clear 29,000 square feet of land of trash and invasive plant species in order to help reclaim this wetlands area. The group also helped to repair and maintain walkways through this area.

46511	15664	JOHNSON & JOHNSON INC CONSUMER PRODUCTS	199 GRANDVIEW RD, MONTGOMERY TWP, NJ 08558	10/2/2008	River-Friendly Certification, Stony - brook Watershed Association. Wastewater Treatment Plant discharges to a stream which is in the Stony Brook Watershed. In 2002, the site was given a set of organizational goals to enhance the wildlife and habitat, water conservation, water quality management and community outreach. The facility has been certified River-Friendly in 2005. Created a Pesticide usage plan: Reduced application by 68 % between 2002-2005, created buffers at several places, increased natural areas by 4 acres and more. The project was completed in 2005. The facility is maintaining its goals.
46537	9353	LANDIS SEWER AUTH WWTP & PUMP STATION	1776 S MILL RD, DEAD END OF VINELAND, NJ 08360	11/10/2011	1. Replanted White Cedars 2. Bob White Project: In 2011 grasses planted for bob white habitat. Bob Whites were also released 3. Active "Forest Management Plan"
NJD00233 9406	14685	LANXESS SYBRON CHEMICALS INC	200 BIRMINGHAM RD, BIRMINGHAM, NJ 08011	3/14/2008	LanXess Sybron sold 500 acres to the Township as to be preserved as Green Acres Space.
203035	2907	LAVALLETTE BORO HALL	1306 GRAND CENTRAL AVE, LAVALLETTE, NJ 087350000	12/22/2010	Dune grass planting is done each year to maintain the environmentally sensitive dune ecosystem.
5395	15832	LOGAN GENERATING CO LOGAN GENERATING PLANT	76 RT 130, LOGAN TWP, NJ 080859300	5/6/2008	An active participant in the Delaware Estuary Project Phase 2 of the wetland project started in 2005. This project was conducted in cooperation with Partnership for the Delaware Estuary (PDE) and the US Fish and Wildlife Service (USFWS) as a part of the wetlands reclamation projects located on Logan generating property. The following milestones were completed. - Grubbing and discoing of approximately four acres of land - Planting of wetlands related (Indian, Bluesteu, Shelter) grasses -completion of pre-emergent pest management control activities -removal of dead trees and restalking of existing trees from the original planting of 425 trees associated with phase 1
NJD98156 3133	14783	LP THEBAULT DIV OF EARTHCOLOR	249 POMEROY RD, PARSIPPANY-TROY HILLS TWP, NJ 07981	8/12/2010	Maintains large green space at Pomeroy facility.
203240	18730	LYNDHURST TWP MUNICIPAL COMPLEX	367 VALLEY BROOK AVE, LYNDHURST, NJ 07071	3/11/2008	Each year the Borough of Lyndhurst plants trees for their streetscaping program.
203252	154032	MAHWAH TWP	475 CORPORATE DR, MAHWAH TWP, NJ 07430	3/10/2008	The Borough has purchased a specific mower that removes all geese waste from their fields. Fecal coliform is a pollutant of concern in this area.
17050004 0000	15871	MANNINGTON MILLS INC	75 MANNINGTON MILLS RD, & RT 45 MANNINGTON TWP, NJ 08079	6/21/2010	Riparian/Shrub-scrub project May and November 2009 with Phase 3 completed in May 2010: Mannington partnered with the NJ Audubon Society, US Fish and Wildlife Service, and the Partnership for the Delaware Estuary to significantly improve a

PI Number	Site ID	Site Name	Address	Date Acknowledged	Comments
					local, Riparian habitat by restoring 12 acres of low grade agricultural land to an improved riparian buffer. By planting this riparian buffer with native trees & shrubs, the area will be established as a shrub-scrub habitat with a life expectancy of over 30 years (eventually succeeding to forest). During the first 30+ years of establishment, the project will provide habitat for bird species of concern: blue-winged warbler, eastern kingbird, brown thrasher, prairie warbler, eastern towhee & field sparrow. Honeybee Project: To help improve the local honeybee population, Mannington Mills is now home to 5 new honeybee colonies. One of Mannington's Associates is an experienced beekeeper and helped establish 5 new hives to the Salem property which hopefully will grow upwards to 10 to 60 thousand bees and ultimately help local farmers within a 2-mile radius to more efficiently pollenate crops and help reestablish a declining honeybee population. Purple martin project: <a href="http://www.mannington.com/global/products/environment/neighborhood/purple-martins.asp">http://www.mannington.com/global/products/environment/neighborhood/purple-martins.asp</a>

55779	14548	NJ ROWAN UNIVERSITY	201 MULLICA HILL RD, & ROWAN BLVD GLASSBORO, NJ 08028	8/23/2011	Runoff Reduction: Rowan installed three rain gardens on campus in conjunction with faculty and students to manage storm water runoff and support native plant species. The rain gardens are designed to collect storm water and allow it to infiltrate the ground. The design employs native plants and grading plans to optimize the effectiveness of the runoff gardens. In addition, a fourth storm water management project is currently in final design for one of the parking lots. This project is a bio-filtration system which will use native plants in a design that collects storm water runoff coming from a paved student parking lot and diverts it from the storm sewers. Reforestation Project: Rowan has planted numerous trees on campus over the past few years and has a campus wide program of re-establishing native, drought-tolerant species as part of a reforestation project.
55779	14548	NJ ROWAN UNIVERSITY	201 MULLICA HILL RD, & ROWAN BLVD GLASSBORO, NJ 08028	5/30/2008	Rowan is in the process this summer of 2008 of creating open green space from the demolition of its original Science Building - Bosshart Hall. Rowan adopted an aggressive campus-wide landscaping plan and has planted numerous trees across the campus and re-established native, drought tolerant species. The University Master Planning approach assures all activities on the campus display rigorous standards in environmental responsibility.

47566	38130	ROYCE BROOK GOLF CLUB	201 HAMILTON RD, HILLSBOROUGH, NJ 08844	12/10/2010	See entry dated 1-5-09
2449P	38130	ROYCE BROOK GOLF CLUB	201 HAMILTON RD, HILLSBOROUGH, NJ 08844	1/5/2009	In June 2007 the facility initiated (Wildlife and Habitat Management" activities to enhance the natural areas and landscaping on the golf course to protect and sustain native habitats and the wildlife that depend on them for survival. Continually expand general knowledge of the plants, wildlife species, and habitats found on the golf course. Improved minimally used and landscaped areas to provide habitat for a variety of wildlife species. Preserve the rich biological diversity of their region by protecting existing native habitats and species, and landscaping primarily with indigenous (native) plants. Project involved protection of 165 acres of woodland habitat and use of native plants in landscaping provide valuable food and habitat for local and migratory wildlife on the property, while also reducing the water, labor and other inputs needed for maintenance and upkeep. On November 26, 2008 Audubon International reported that "Royce Brook Golf Club" had achieved certification in "Wildlife and Habitat Management" to protect endangered/threatened species, plant native vegetation when landscaping, provide extensive habitat along streams and lakes to provide for food and shelter for wildlife, protecting vast acres of wetland and educate golfers about the importance of natural areas.

60283	6192	WEST WINDSOR PLAINSBORO RGNL SD W WINDSOR HIGH SCHOOL	346 CLARKSVILLE RD, WEST WINDSOR TWP, NJ 08550	11/19/2009	The school's Environmental club has organized tree planting and trail beautification events. Planted a perennial garden in the school courtyard.
168353	4941	WOODBIDGE TWP MUNICIPAL BUILDING	1 MAIN ST, WOODBIDGE, NJ 07095	1/5/2011	Created walkways and public access to local water ways; implemented municipal tree planting program.
168353	4941	WOODBIDGE TWP MUNICIPAL BUILDING	1 MAIN ST, WOODBIDGE, NJ 07095	11/25/2009	Created walkways and public access to local water ways; implemented municipal tree planting program.
26704	406365	WYNDHAM WORLDWIDE CORPORATE HEADQUARTERS	22 SYLVAN WAY, PARSIPPANY, NJ 07054	2/18/2010	Only native plantings were utilized for landscaping.

# Details of Sites Participating in a Particular Stewardship Activity

## 21) Environmental Enhancement Projects

(sorted by Acknowledged Date)

The New Jersey Department of Environmental Protection provides stewardship information in order to acknowledge and therefore encourage voluntary actions that result in a positive benefit to the environment

### Results as of 02/02/2012

Number of Sites: 97

NOTES: (1) DATA - Regulated sites are surveyed about stewardship activities in 21 possible categories addressed in checklist questions numbered 3 to 23. Sites surveyed prior to the report date may not be listed here due to ongoing review related to site complexities. When review is complete a certificate will be issued to the site and it will be listed in the next published report. (2) SOURCE: The information in this report was recorded by enforcement personnel as part of compliance assurance activities. Ensuring compliance remains a primary function of DEP staff who collect the data. Compliance concerns do not automatically disqualify a site from receiving recognition for stewardship, but the Department reserves the right to exclude habitual or egregious violators. Full results of DEP compliance assurance activities including any non-compliance can be accessed through separate reports found here: [http://datamine2.state.nj.us/dep/DEP\\_OPRA/EnfActivityDetails.htm](http://datamine2.state.nj.us/dep/DEP_OPRA/EnfActivityDetails.htm) (3) DATA QUALITY/VALIDITY: Limitations on the investment of resources to verify and document stewardship means that the level of confidence in stewardship information is lower than that for compliance information which must support cases before a court of law. The Department may take under advisement input from third parties regarding the validity or accuracy of stewardship information at listed sites. Email concerns to [stewardshipdata@dep.state.nj.us](mailto:stewardshipdata@dep.state.nj.us).

Messages should identify the report, site name and ID, and specific data elements in question as well as the basis for concern or disagreement. Site representatives with concerns about their own data should report these first to their inspector.

**Stewardship Activity:** 21) ENVIRONMENTAL ENHANCEMENT PROJECTS - Has the site undertaken an Environmental Enhancement Project that has resulted in the reclamation or improvement of land at the site or within the community? If yes, identify the project and the resulting improvement to the environment.

14782	DREW UNIVERSITY	36 MADISON AVE, MADISON, NJ 07940	1/31/2012	Drew Forest Habitat Restoration Project - Drew University has restored a natural ecosystem on approx. 18 acres of forest and wetland habitat on the university campus. The restoration program had three components: 1) extensive removal of non-native invasive species, 2) erection of a 10 ft high deer enclosure fence surrounding the 18 acres, and 3) planting of 1300 native trees and shrubs. In addition, a second project, located in the center of the campus involved conversion of a lawn area to native plantings. Over 5000 native plants from 70 native species including 40 types of wildflowers, 12 shrub species and most of the region's upland ferns have been planted to form a lush, complex and diverse natural ground layer, which has resulted in restoration of a functioning ecosystem and protection of imperiled species.
36640	EASTERN CONCRETE MATERIALS CO	201 RT 539, BARNEGAT, NJ 08005	11/18/2011	Facility has deed restricted 112 acres of its property for the habitat of the northern pine snake, <i>Pituophis melanoleucus</i>
9353	LANDIS SEWER AUTH WWTP & PUMP STATION	1776 S MILL RD, DEAD END OF VINELAND, NJ 08360	11/10/2011	1. Replanted White Cedars 2. Bob White Project: In 2011 grasses planted for bob white habitat. Bob Whites were also released 3. Active "Forest Management Plan"
128461	DEERWOOD COUNTRY CLUB	845 WOODLANE RD, WESTAMPTON TWP, NJ 08060	10/17/2011	Deerwood has placed 5 bluebird houses and 3 bat houses on the golf course.
1851	BERNARDSVILLE BORO STP	166 MINE BROOK RD, BERNARDSVILLE, NJ 07924	9/15/2011	Bernardsville Borough has a Tree Protection Ordinance, a Shade Tree Commission, a Community Forestry Management Plan and a Community Garden
182100	HASBROUCK HEIGHTS BORO	320 BOULEVARD, HASBROUCK HEIGHTS, NJ 07604	9/7/2011	Designated a Tree City for 14 + years.

14548	NJ ROWAN UNIVERSITY	201 MULLICA HILL RD, & ROWAN BLVD GLASSBORO, NJ 08028	8/23/2011	Runoff Reduction: Rowan installed three rain gardens on campus in conjunction with faculty and students to manage storm water runoff and support native plant species. The rain gardens are designed to collect storm water and allow it to infiltrate the ground. The design employs native plants and grading plans to optimize the effectiveness of the runoff gardens. In addition, a fourth storm water management project is currently in final design for one of the parking lots. This project is a bio-filtration system which will use native plants in a design that collects storm water runoff coming from a paved student parking lot and diverts it from the storm sewers. Reforestation Project: Rowan has planted numerous trees on campus over the past few years and has a campus wide program of re-establishing native, drought-tolerant species as part of a reforestation project.
12553	ATLANTIC CITY COUNTRY CLUB	1 LEO FRASER DR, & SHORE RD NORTHFIELD, NJ 08225	7/1/2011	After many changes to the Golf Course layout and design, the GC applied for and received Audubon Certification, with changes to course design and layout implemented to encourage and improve migratory bird habitat & water quality runoff improvements.
14466	ORTHO CLINICAL DIAGNOSTICS	1001 RT 202, RARITAN, NJ 08869	6/21/2011	OCD has planted landscaping along their walking trail which is at the perimeter of the solar panels. The landscaping consists of more than 2000 plants that are native to NJ and increase biodiversity to our environment.
14986	MARCAL MFG CORP	1 MARKET ST, ELMWOOD PARK, NJ 07407	6/16/2011	April 11 & 12 2011, 75 Marcal employees volunteered to participate in a two day cleanup that included the Passaic River bank (in cooperation with Passaic Valley Sewage Commissioners) and a clean up the streets surrounding their property. In all, 10,940 pounds of garbage was collected. Marcal has adopted the Elmwood Park Marina (for the next 6 months) & donated seven (7) trees to Elmwood Park - six (6) Arborvitae and one (1) Weeping Willow as part of Earth Day Celebrations (that included an Energy & Health Fair.
169553	DELAWARE RIVER JOINT TOLL BRIDGE COMM	110 WOOD ST, MORRISVILLE, PA 19067	6/14/2011	Ongoing tree planting program at toll bridge facilities. A program to replace grass with Wildflowers has also been implemented.
83183	JANSSEN PHARMACEUTICAL CO OF J&J	1000 RT 202, RARITAN BORO, NJ 08869	5/17/2011	Facility has a comprehensive biodiversity plan to improve flora on site. Completed projects maintained at the site include installation of bluebird boxes and approximately 1 acre of native species grasses and a nature trail.
49293	OCEAN CNTY ATLANTIS GOLF COURSE	COUNTRY CLUB BLVD, LITTLE EGG HARBOR, NJ 08087	4/19/2011	Facility has received a State of New Jersey grant to plant five acres of wildflowers which provides additional habitat for butterflies, insects and wildlife.
12661	NJ RICHARD STOCKTON COLLEGE	POMONA RD, GALLOWAY TWP, NJ 08240	3/22/2011	They have a Forest Stewardship program with students and school support. They recently rebuilt the Cedar Swamp bridge with an old growth tree that was cut down by vandals. The bridge encourages controlled visitation to an on campus wetlands habitat.
6085	CRANBURY TWP BD OF ED	23 MAIN ST, CRANBURY, NJ 08512	3/3/2011	Cranbury Township has obtained a grant and implemented the Cranbury Wildlife Habitat Incentive known as the Cranbury Preserve. The preserve continues to be maintained and is planted with native grasses and allowed to grow. The preserve is enjoyed by the residents of Cranbury Township. The Grant obtained was in concert with the Department of Agriculture, please refer to <a href="http://www.nrcs.usda.gov">www.nrcs.usda.gov</a> for program details.
14667	CAMDEN CNTY MUA DLWR #1 STP	200 JACKSON ST, & 2ND AVE CAMDEN, NJ 081011432	2/8/2011	CCMUA continues to be responsible for maintenance/upkeep of Millenium Park in Camden and the 2 acre nature trail at the Winslow treatment plant in Winslow Twp.
4941	WOODBIDGE TWP MUNICIPAL BUILDING	1 MAIN ST, WOODBIDGE, NJ 07095	1/5/2011	Created walkways and public access to local water ways; implemented municipal tree planting program.
43437	FRANKLIN TWP MUNICIPAL BUILDING	475 DEMOTT LN, SOMERSET, NJ 08873	1/5/2011	Environmental Enhancement Projects completed on township open space include trail construction, bat box construction, barn swallow nesting structure and a butterfly garden.

62910	RICOH AMERICAS CORP @ W ESSEX IND PK	5 DEDRICK PL, WEST CALDWELL, NJ 07006	1/4/2011	Ricoh employees have volunteered at the Hilltop Reservation. The project involved clearing brush & rocks over the park's western route, addressing the problem of run-off by the detention basin and planting wildflower and resurfacing existing meadow path with wood chips to establish a dry, walkable trail.
14315	MONMOUTH UNIVERSITY	400 CEDAR AVE, WEST LONG BRANCH, NJ 07764	12/23/2010	Monmouth University conducts a program they call "Clean Ocean Action" in which university students volunteer their time to clean beaches, lakes, and streams to help reduce pollution of the water and land in the Long Branch area.
2907	LAVALLETT BORO HALL	1306 GRAND CENTRAL AVE, LAVALLETT, NJ 087350000	12/22/2010	Dune grass planting is done each year to maintain the environmentally sensitive dune ecosystem.
49307	AVALON BORO MUNICIPAL BUILDING	3100 DUNE DR, AVALON, NJ 08210	12/21/2010	Avalon Borough Environmental Commission oversaw the development and implementation of the Dune Vegetation Management Plan. In 2010, a Pilot Project test area at 74th Street was initiated to reestablish native dune vegetation and remove Japanese Black pine from the sensitive coastal ecosystem. Dune Vegetation Management Plan <a href="http://www.avalonboro.org/news/dune-vegetation-plan/Website_12_16_09_Dune_Veg_Mgmt_Plan.pdf">http://www.avalonboro.org/news/dune-vegetation-plan/Website_12_16_09_Dune_Veg_Mgmt_Plan.pdf</a>
13650	BROOKDALE COMMUNITY COLLEGE	765 NEWMAN SPRINGS RD, LINCROFT, NJ 07738	12/20/2010	Brookdale has installed 2 rain gardens to capture runoff from their parking lots and prevent it from running off into the Swimming River Reservoir. They are located at the end of parking lot 1 and next to parking lot 2. The rain gardens consists of a depressed area planted with plants that live in wet environments. They plan on installing 3 more gardens in the spring with one of them located so that there is access to the community for educational purposes. Brookdale was given a \$50,000 grant from the state to install the rain gardens.
38130	ROYCE BROOK GOLF CLUB	201 HAMILTON RD, HILLSBOROUGH, NJ 08844	12/10/2010	See entry dated 1-5-09
6005	TEC SPECIALTY PRODUCTS INC	59 BRUNSWICK AVE, EDISON, NJ 088172082	11/15/2010	Facility had a low lying area which collected ponded rainwater. Facility converted area into a rain garden utilizing plants suited for such drainage.
15826	BRISTOL MYERS SQUIBB CO	RT 206 & PROVINCE LINE RD, LAWRENCEVILLE, NJ 08648	10/28/2010	BMS constructed a "turtle beach" along the shore of the lake at the facility. The turtles that reside in the lake can easily enter and exit the lake and lay their eggs in this constructed beach. In addition, a sign describes the types of turtles commonly found in the lake.
15746	PSE&G HUDSON GENERATING STATION	DUFFIELD AVE & VAN KEUREN AVE, JERSEY CITY, NJ 073066189	10/22/2010	The site has worked with the Hackensack Riverkeeper to install an Osprey nest platform at the facility. Seasonal operator work arrounds are implemented and multiple barricades are erected to minimize disturbance around the nest platform during fledgling season. PSEG has partnered with the Hackensack Riverkeeper to install other Osprey nest platforms along the Hackensack River.
15664	JOHNSON & JOHNSON INC CONSUMER PRODUCTS	199 GRANDVIEW RD, MONTGOMERY TWP, NJ 08558	10/21/2010	See entry dated 10/2/2008
14783	LP THEBAULT DIV OF EARTHCOLOR	249 POMEROY RD, PARSIPPANY-TROY HILLS TWP, NJ 07981	8/12/2010	Maintains large green space at Pomeroy facility.
15681	ST JOSEPHS HOSPITAL & MEDICAL CENTER	703 MAIN ST, PATERSON, NJ 075030000	7/27/2010	ST. Joseph's continues to maintain the park across from the hospital. The park was constructed after they purchased and demolished three houses to create more green space in Paterson. They also maintain green space at the 102-108 Barclay St. property they bought several blocks from the hospital. NEW - St. Joseph's bought a fourth property across the street from the hospital and demolished the house that was on it to expand the park they own and maintain.

40026	NEWTON TOWN MORRIS LAKE WTP	60 MORRIS LAKE RD . SPARTA TWP, NJ 07871	7/22/2010	The facility stocks trout in Morris Lake for ecological enhancement.
15871	MANNINGTON MILLS INC	75 MANNINGTON MILLS RD, & RT 45 MANNINGTON TWP, NJ 08079	6/21/2010	Riparian/Shrub-scrub project May and November 2009 with Phase 3 completed in May 2010: Mannington partnered with the NJ Audubon Society, US Fish and Wildlife Service, and the Partnership for the Delaware Estuary to significantly improve a local, Riparian habitat by restoring 12 acres of low grade agricultural land to an improved riparian buffer. By planting this riparian buffer with native trees & shrubs, the area will be established as a shrub-scrub habitat with a life expectancy of over 30 years (eventually succeeding to forest). During the first 30+ years of establishment, the project will provide habitat for bird species of concern: blue-winged warbler, eastern kingbird, brown thrasher, prairie warbler, eastern towhee & field sparrow. Honeybee Project: To help improve the local honeybee population, Mannington Mills is now home to 5 new honeybee colonies. One of Mannington's Associates is an experienced beekeeper and helped establish 5 new hives to the Salem property which hopefully will grow upwards to 10 to 60 thousand bees and ultimately help local farmers within a 2-mile radius to more efficiently pollenate crops and help reestablish a declining honeybee population. Purple martin project: <a href="http://www.mannington.com/global/products/environment/neighborhood/purple-martins.asp">http://www.mannington.com/global/products/environment/neighborhood/purple-martins.asp</a>
38218	CLIFFSIDE PARK BORO MUNICIPAL COMPLEX	525 PALISADE AVE, CLIFFSIDE PARK, NJ 070102998	5/11/2010	The Borough of Cliffside Park has partnered with the NJ Tree Foundation and planted approximately 150 trees throughout the Borough as part of the street scape program.
15703	SANOVI AVENTIS USA INC	1041 RT 202/206, BRIDGEWATER TWP, NJ 088070800	3/19/2010	The following is In addition to entry dated 3/20/09: The facility received on 10/27/09 "River Friendly Business Certification" from the Watershed Programs, New Jersey Water Supply Authority, for outstanding efforts to protect water resources in the Raritan River basin. The facility ensures that its landscape contractor takes adequate number of soil samples throughout the property on a routine basis to ensure that all fertilizer applications are performed in accordance with the soil test results. The facility has increased the "no-mow" zone lawn areas on site by approximately 450,000 square feet (16.5% of its sites lawn area). Installed a 33,000 square feet wildflower area near the front entrance of the site. Created a vegetated buffer along Peter's brook in Area A (by area marked as 46,979 sq.ft, approx. 1.1 acres) and designated this area as a no-mow zone and have stopped all fertilization. Created a vegetated buffer along Peter's brook in Area B (by area marked as 67,338 sq.ft, approx. 1.5 acres) and designated this area as a no-mow zone and have stopped all fertilization. Created a vegetated buffer along Peter's brook in Area C (by area marked as 50,920 sq.ft, approx. 3.5 acres) and designated this area as a no-mow zone and have stopped fertilization. More than 60 trees were also planted in this area. All areas along Peter's Brook have been designated as no-mow zones and have also stopped all fertilization.
48307	MEDFORD TWP MUA	CHURCH RD & FOSTERTOWN RD, MEDFORD TWP, NJ 08055	3/17/2010	See entry dated 3/7/08 for details.
14556	COVANTA WARREN ENERGY RESOURCE CO	218 MT PISGAH RD, & QUARRY RD OXFORD, NJ 078632615	2/19/2010	1) Covanta worked with the Audubon Society of New Jersey to place several Bat and Bird boxes in areas around their facility in October of 2009. 2) Covanta signed an agreement with the US Fish and Wildlife in 2009 dedicating 3 acres of their site to natural habitat for the next ten years. Covanta also paid a landscaper to come in and remove non indigenous species from that area. 3) Covanta, with the help of local cub scout troops, planted 1300 indigenous species in the area dedicated to natural habitat for Earth Day 2010. US Fish and Wildlife and the Audubon Society were present at the planting.
406365	WYNDHAM WORLDWIDE CORPORATE HEADQUARTERS	22 SYLVAN WAY, PARSIPPANY, NJ 07054	2/18/2010	Only native plantings were utilized for landscaping.

12691	PENN JERSEY BUILDING MATERIALS	2817 FIRE RD @ RR TRACKS, EGG HARBOR TWP, NJ 08232	5/8/2009	Penn Jersey planted approximately 100 trees around facility site.
18269	GENZYME BIOSURGERY	1125 PLEASANTVIEW TER, RIDGEFIELD, NJ 07657	3/31/2009	The following examples over the past 3 years highlight Genzyme's commitment to community outreach on the environment through environmental stewardship activities. On Friday, March 28th 2008, Genzyme Biosurgery volunteers and members of the Meadowlands Conservation Trust, Ridgefield Environmental Commission, and New Jersey Meadowlands Commission performed a creek clean-up event at Skeetkill Creek Marsh in Ridgefield. The goal was to remove floatable debris from the banks of the creek. On April 20th Genzyme employees participated in an Annual Earth Day Event sponsored by the Bergen County Soil Conservation District. This Bergen County Parks Erosion Control Project took place at Glen Rock Park in Glen Rock, New Jersey. Other organizations that participated were Master Gardeners Association, Bergen County Utilities Authority (BCUA), and United Water. Planting of 600 silky dogwood seedlings were performed by approximately 70 volunteers (stewards) in all. This is a great event every year. The Bergen County Executive ? Dennis McNerney was also present at this event. In honor of Arbor Day, which took place on April 27th 2007, Genzyme Biosurgery donated 100 white pine seedlings for the event and for volunteers to take home. The White Pine Seedlings were received from the New Jersey Forest Service as part of their Arbor Day celebration specials. On May 3rd, 2007 Genzyme Biosurgery (Ridgefield, NJ) co-hosted the 2nd Annual Skeetkill Creek Clean-up event with the Hackensack Riverkeeper Inc. Members of the Hackensack Riverkeeper Inc (Part of the International Riverkeeper Alliance), Capt Bill Sheehan ? The Hackensack Riverkeeper, New Jersey Meadowlands Commission, Ridgefield Environmental Commission, The Honorable Mayor of Ridgefield Boro ? Mayor Anthony Suarez, and Tina Schvedja ? Executive Director of the Meadowlands Conservation Trust were all present for Genzyme Biosurgery's Creek Clean-up event. Employees from our sister facility ? Genzyme Genetics, New York City joined in this year's Creek Clean-up event. 53 Employees from Ridgefield and 11 employees from Genetics in NYC participated. Note: in November 2007 Skeetkill Creek Marsh will be preserved for perpetuity through the Meadowlands Conservation Trust. Regular maintenance of the creek embankments over time will be performed by Neighborhood Landscaping Corp. and by Genzyme Biosurgery stewardship events. On Friday, April 21st, 2006, twenty Genzyme Biosurgery employees participated at an Earth Day Celebration event which included planting of silkwood bushes along a riverbank at the Saddle River County Park - the Otto Pehle Park Area as part of the "Erosion Control Project." The event was hosted by the Bergen County Soil Conservation District and the Bergen County Environmental Council, which Genzyme Biosurgery ? Ridgefield site, is a member of as of March 2006. Skeetkill Creek is a 16 acre wetlands area located across the street (Pleasant View Terrace) from Genzyme Biosurgery. Genzyme maintains a lookout area which is open to our employees and to the public. The creek is part of the Hackensack River Watershed. On Friday, April 28th, 2006: ?Skeetkill Creek Clean-up, Canoe Rides, and Native Seedling Planting FISH Event.? Sixty (60) Genzyme volunteers helped with the planting of native wetland plants in different areas of the Skeetkill Creek. Employees helped by paddling canoes and cleaning up in parts of the area including nature trail. A number also helped to remove a 7 foot diameter tractor tire from the creek (a 3 hour effort)
15703	SANOVI AVENTIS USA INC	1041 RT 202/206, BRIDGEWATER TWP, NJ 088070800	3/20/2009	In 2008 the facility planted several hundred plants and trees on site and decreased its mowed lawn areas to promote a more natural look. Improvements to the environment include improvement of water quality and promotion of wildlife habitat. The project will continue to be improved upon and remains ongoing. The project size is as follows: Approximately 10 acres of manicured lawns returned to the natural state. Approximately 10 less acres of fertilized lawns. Approximately 5 acres of newly planted areas.

169624	UNION CNTY	2325 SOUTH AVE, SCOTCH PLAINS, NJ 07076	3/20/2009	Union County organized a joint stream daylighting project at Warinanco Park with Merck and Co. The project expose an existing underground piped stream and create additional linear stream footage to replicate a natural watercourse. New plantings and trees established along the approximately 2,000 feet-long stream provided an improved wildlife habitat area for birds, fish and other wildlife in the area.
37249	VEOLIA ES TECHNICAL SOLUTIONS CORP	1 EDEN LN, FLANDERS, NJ 07836	3/5/2009	Veolia participates in Adopt-A-Highway . This organization, a part of the New Jersey Department of Transportation, has established an anti-litter program whereby volunteer groups adopt a section of a state highway in their community. Twice a year, Veolia participates in this program by picking up litter on a portion of State Route 206.
182100	HASBROUCK HEIGHTS BORO	320 BOULEVARD , HASBROUCK HEIGHTS, NJ 07604	3/4/2009	The Borough of Hasbrouck Heights has been designated a Tree City for at least 14 years.
14156	RUTHERFORD BORO POLICE DEPT	176 PARK AVE, RUTHERFORD, NJ 07071	2/17/2009	The Borough has been a registered Tree City for the past 6 years. The Borough is committed to planting and maintaining the trees in their community.
169582	USDOD ARMY FORT DIX	RDPW AFRC-FA-PWN, PEMBERTON, NJ 086405501	2/10/2009	On National Public Lands Day Sept 29, 2007. Ft Dix rounded up over 145 volunteers and removed over 520 invasive plants and replaced them with 220 native plant species. The volunteers also built a foot bridge, mounted bird nesting boxes, installed split rail fencing around a lake with educational signage, and initiated a trash clean up effort that recovered 7,100 lbs of trash and debris.
184118	NESHANIC VALLEY GOLF COURSE	2301 S BRANCH RD, NESHANIC STATION, NJ 08853	1/20/2009	The Golf Course has been designated "River-Friendly" by the NJ Water Supply Authority. <a href="http://www.somersetcountyparks.org/PressReleases/070108/NV_GC_RiverFriendly.html">http://www.somersetcountyparks.org/PressReleases/070108/NV_GC_RiverFriendly.html</a>
143909	EMERSON BORO	MUNICIPAL PL, EMERSON, NJ 076301166	1/14/2009	The Borough of Emerson has remained a Tree City designation.
49113	DUKE FARMS FOUNDATION	80 RT 206, HILLSBOROUGH, NJ 08844	1/6/2009	There are several landscapes/habitat types currently being regenerated at Duke Farms. Link: <a href="http://www.dukefarms.org/page.asp?pagelId=559">http://www.dukefarms.org/page.asp?pagelId=559</a>
38130	ROYCE BROOK GOLF CLUB	201 HAMILTON RD, HILLSBOROUGH, NJ 08844	1/5/2009	In June 2007 the facility initiated (Wildlife and Habitat Management" activities to enhance the natural areas and landscaping on the golf course to protect and sustain native habitats and the wildlife that depend on them for survival. Continually expand general knowledge of the plants, wildlife species, and habitats found on the golf course. Improved minimally used and landscaped areas to provide habitat for a variety of wildlife species. Preserve the rich biological diversity of their region by protecting existing native habitats and species, and landscaping primarily with indigenous (native) plants. Project involved protection of 165 acres of woodland habitat and use of native plants in landscaping provide valuable food and habitat for local and migratory wildlife on the property, while also reducing the water, labor and other inputs needed for maintenance and upkeep. On November 26, 2008 Audubon International reported that "Royce Brook Golf Club" had achieved certification in "Wildlife and Habitat Management" to protect endangered/threatened species, plant native vegetation when landscaping, provide extensive habitat along streams and lakes to provide for food and shelter for wildlife, protecting vast acres of wetland and educate golfers about the importance of natural areas.
14271	BERGEN CNTY UTIL AUTH WTP & SLF	MEHRHOF RD, @ FT OF LITTLE FERRY, NJ 07643	12/22/2008	BCUA developed and maintains the Nature Preserve and Passive Park which provides open space and access to the public for bird watching and environmental education.

15703	SANOVI AVENTIS USA INC	1041 RT 202/206, BRIDGEWATER TWP, NJ 088070800	12/9/2008	In 2008 the facility planted several hundred plants and trees on site and decreased its mowed lawn areas to promote a more natural look. Improvements to the environment include improvement of water quality and the promotion of wildlife habitat. The project will continue to be improved upon and remain ongoing. The project size is as follows: Approximately 10 acres of manicured lawns returned to the natural state. Approximately 10 less acres of fertilized lawns. Approximately 5 acres of newly planted areas.
44604	NORWOOD BORO HALL	455 BROADWAY, NORWOOD, NJ 07648	12/1/2008	The borough has donated 150 acres of undeveloped land to the Meadowlands Conservation Trust. Benefits open space.
6085	CRANBURY TWP BD OF ED	23 MAIN ST, CRANBURY, NJ 08512	11/5/2008	Cranbury Township has obtained a grant and implemented the Cranbury Wildlife Habitat Incentive known as the Cranbury Preserve. The preserve is planted with native grasses and allowed to grow. The Grant obtained was in concert with the Department of Agriculture, please refer to <a href="http://www.nrcs.usda.gov">www.nrcs.usda.gov</a> for program details.
16005	BURLINGTON CNTY COMMUNITY COLLEGE	601 PEMBERTON BROWNS MILLS RD, AKA RT 530 PEMBERTON TWP, NJ 080681599	10/7/2008	The Pemberton campus has taken 25-30 acres of it's property and converted it to natural habitat by planting native grasses and fescues and not mowing.
19036	BURLINGTON CNTY COLLEGE MOUNT LAUREL CAMPUS	3331 RT 38, MOUNT LAUREL, NJ 08054	10/7/2008	The campus has 10 acres that they have turned into natural areas where they plant wildflowers and do not mow.
15664	JOHNSON & JOHNSON INC CONSUMER PRODUCTS	199 GRANDVIEW RD, MONTGOMERY TWP, NJ 08558	10/2/2008	River-Friendly Certification, Stony - brook Watershed Association. Wastewater Treatment Plant discharges to a stream which is in the Stony Brook Watershed. In 2002, the site was given a set of organizational goals to enhance the wildlife and habitat, water conservation, water quality management and community outreach. The facility has been certified River-Friendly in 2005. Created a Pesticide usage plan: Reduced application by 68 % between 2002-2005, created buffers at several places, increased natural areas by 4 acres and more. The project was completed in 2005. The facility is maintaining its goals.
14304	JNBC ASSOC	100 JEFFERSON RD, PARSIPPANY-TROY HILLS TWP, NJ 07054	8/14/2008	McNeil has an annual program where employees volunteer their time to help clean and preserve existing open spaces in their community. In 2007, 29 employees went to the Great Swamp in Morris County and helped clear 29,000 square feet of land of trash and invasive plant species in order to help reclaim this wetlands area. The group also helped to repair and maintain walkways through this area.
8346	NJ RUTGERS UNIVERSITY	360 MARTIN LUTHER KING BLVD, NEWARK, NJ 07102	7/30/2008	Environmental Enhancement projects include creating and maintaining a green roof above two large lecture halls. This project includes a sustainable garden featuring plant materials indigenous to this area. Another project involved removal of impervious concrete slabs from numerous areas of the Student Plaza and replacement with brick walkways, trees, shrubs, grass and ivy groundcover.
14748	SANDY ALEXANDER INC	200 ENTIN RD, CLIFTON, NJ 070141423	7/30/2008	In 2007, Sandy Alexander volunteers worked with the Nature Conservancy to maintain trails at Muckshaw Pond.
18747	AES RED OAK POWER PLANT	832 RED OAK LN, SAYREVILLE, NJ 08872	7/22/2008	AES Red Oak has added 2,500 trees on the property. They have installed 2 dozen bird houses and 1 deer/wildlife feeder.
14467	ETHICON INC	RT 22 W, BRIDGEWATER TWP, NJ 088760151	7/8/2008	Environmental Enhancement Projects include: Ethicon employees in coordination with the Upper Raritan Watershed Assoc. planted 100 native shrubs in a nature preserve.
148045	HUNTERDON CNTY	RT 12, FLEMINGTON, NJ 08822	6/18/2008	Hunterdon County in conjunction with Soil Conservation Services replaced an eroded drainage area in Cold Brook Reserve (Tewksbury Township) with a wetland water quality pool.

**Details of Sites Participating in a Particular Stewardship Activity**  
**21) Environmental Enhancement Projects**  
**(sorted by County)**

The New Jersey Department of Environmental Protection provides stewardship information in order to acknowledge and therefore encourage voluntary actions that result in a positive benefit to the environment.

**Results as of 02/02/2012**

**Number of Sites: 97**

NOTES: (1) DATA - Regulated sites are surveyed about stewardship activities in 21 possible categories addressed in checklist questions numbered 3 to 23. Sites surveyed prior to the report date may not be listed here due to ongoing review related to site complexities. When review is complete a certificate will be issued to the site and it will be listed in the next published report. (2) SOURCE: The information in this report was recorded by enforcement personnel as part of compliance assurance activities. Ensuring compliance remains a primary function of DEP staff who collect the data. Compliance concerns do not automatically disqualify a site from receiving recognition for stewardship, but the Department reserves the right to exclude habitual or egregious violators. Full results of DEP compliance assurance activities including any non-compliance can be accessed through separate reports found here: [http://datamine2.state.nj.us/dep/DEP\\_OPRA/EnfActivityDetails.htm](http://datamine2.state.nj.us/dep/DEP_OPRA/EnfActivityDetails.htm)

(3) DATA QUALITY/VALIDITY: Limitations on the investment of resources to verify and document stewardship means that the level of confidence in stewardship information is lower than that for compliance information which must support cases before a court of law. The Department may take under advisement input from third parties regarding the validity or accuracy of stewardship information at listed sites. Email concerns to [stewardshipdata@dep.state.nj.us](mailto:stewardshipdata@dep.state.nj.us).

Messages should identify the report, site name and ID, and specific data elements in question as well as the basis for concern or disagreement. Site representatives with concerns about their own data should report these first to their inspector.

**Stewardship Activity:** 21) ENVIRONMENTAL ENHANCEMENT PROJECTS - Has the site undertaken an Environmental Enhancement Project that has resulted in the reclamation or improvement of land at the site or within the community? If yes, identify the project and the resulting improvement to the environment.

**Atlantic County**

Ridgefield Boro	18269	GENZYME BIOSURGERY	1125 PLEASANTVIEW TER, RIDGEFIELD, NJ 07657	3/31/2009	<p>The following examples over the past 3 years highlight Genzyme's commitment to community outreach on the environment through environmental stewardship activities. On Friday, March 28th 2008, Genzyme Biosurgery volunteers and members of the Meadowlands Conservation Trust, Ridgefield Environmental Commission, and New Jersey Meadowlands Commission performed a creek clean-up event at Skeetkill Creek Marsh in Ridgefield. The goal was to remove floatable debris from the banks of the creek. On April 20th Genzyme employees participated in an Annual Earth Day Event sponsored by the Bergen County Soil Conservation District. This Bergen County Parks Erosion Control Project took place at Glen Rock Park in Glen Rock, New Jersey. Other organizations that participated were Master Gardeners Association, Bergen County Utilities Authority (BCUA), and United Water. Planting of 600 silky dogwood seedlings were performed by approximately 70 volunteers (stewards) in all. This is a great event every year. The Bergen County Executive ? Dennis McNerney was also present at this event. In honor of Arbor Day, which took place on April 27th 2007, Genzyme Biosurgery donated 100 white pine seedlings for the event and for volunteers to take home. The White Pine Seedlings were received from the New Jersey Forest Service as part of their Arbor Day celebration specials. On May 3rd, 2007 Genzyme Biosurgery (Ridgefield, NJ) co-hosted the 2nd Annual Skeetkill Creek Clean-up event with the Hackensack Riverkeeper Inc. Members of the Hackensack Riverkeeper Inc (Part of the International Riverkeeper Alliance), Capt Bill Sheehan ? The Hackensack Riverkeeper, New Jersey Meadowlands Commission, Ridgefield Environmental Commission, The Honorable Mayor of Ridgefield Boro ? Mayor Anthony Suarez, and Tina Schvedja ? Executive Director of the Meadowlands Conservation Trust were all present for Genzyme Biosurgery's Creek Clean-up event. Employees from our sister facility ? Genzyme Genetics, New York City joined in this year's Creek Clean-up event. 53 Employees from Ridgefield and 11 employees from Genetics in NYC participated. Note: in November 2007 Skeetkill Creek Marsh will be preserved for perpetuity through the Meadowlands Conservation Trust. Regular maintenance of the creek embankments over time will be performed by Neighborhood Landscaping Corp. and by Genzyme Biosurgery stewardship events. On Friday, April 21st, 2006, twenty Genzyme Biosurgery employees participated at an Earth Day Celebration event which included planting of silkwood bushes along a riverbank at the Saddle River County Park - the Otto Pehle Park Area as part of the "Erosion Control Project." The event was hosted by the Bergen County Soil Conservation District and the Bergen County Environmental Council, which Genzyme Biosurgery ? Ridgefield site, is a member of as of March 2006. Skeetkill Creek is a 16 acre wetlands area located across the street (Pleasant View Terrace) from Genzyme Biosurgery. Genzyme maintains a lookout area which is open to our employees and to the public. The creek is part of the Hackensack River Watershed. On Friday, April 28th, 2006: ?Skeetkill Creek Clean-up, Canoe Rides, and Native Seedling Planting FISH Event.? Sixty (60) Genzyme volunteers helped with the planting of native wetland plants in different areas of the</p>

Madison Boro	14782	DREW UNIVERSITY	36 MADISON AVE, MADISON, NJ 07940	1/31/2012	Drew Forest Habitat Restoration Project - Drew University has restored a natural ecosystem on approx. 18 acres of forest and wetland habitat on the university campus. The restoration program had three components: 1) extensive removal of non-native invasive species, 2) erection of a 10 ft high deer enclosure fence surrounding the 18 acres, and 3) planting of 1300 native trees and shrubs. In addition, a second project, located in the center of the campus involved conversion of a lawn area to native plantings. Over 5000 native plants from 70 native species including 40 types of wildflowers, 12 shrub species and most of the region's upland ferns have been planted to form a lush, complex and diverse natural ground layer, which has resulted in restoration of a functioning ecosystem and protection of imperiled species.
Mount Olive Twp	37249	VEOLIA ES TECHNICAL SOLUTIONS CORP	1 EDEN LN, FLANDERS, NJ 07836	3/5/2009	Veolia participates in Adopt-A-Highway. This organization, a part of the New Jersey Department of Transportation, has established an anti-litter program whereby volunteer groups adopt a section of a state highway in their community. Twice a year, Veolia participates in this program by picking up litter on a portion of State Route 206.
Parsippany Troy-Hills	14304	JNBC ASSOC	100 JEFFERSON RD, PARSIPPANY-TROY HILLS TWP, NJ 07054	8/14/2008	McNeil has an annual program where employees volunteer their time to help clean and preserve existing open spaces in their community. In 2007, 29 employees went to the Great Swamp in Morris County and helped clear 29,000 square feet of land of trash and invasive plant species in order to help reclaim this wetlands area. The group also helped to repair and maintain walkways through this area.
Parsippany Troy-Hills	14783	LP THEBAULT DIV OF EARTHCOLOR	249 POMEROY RD, PARSIPPANY-TROY HILLS TWP, NJ 07981	8/12/2010	Maintains large green space at Pomeroy facility.
Parsippany Troy-Hills	406365	WYNDHAM WORLDWIDE CORPORATE HEADQUARTERS	22 SYLVAN WAY, PARSIPPANY, NJ 07054	2/18/2010	Only native plantings were utilized for landscaping.

Mannington Twp	15871	MANNINGTON MILLS INC	75 MANNINGTON MILLS RD, & RT 45 MANNINGTON TWP, NJ 08079	8/14/2007	purple martin project <a href="http://www.mannington.com/global/products/environment/neighborhood/purple-martins.asp">http://www.mannington.com/global/products/environment/neighborhood/purple-martins.asp</a> riparian buffer project including new 12 acre tract acquired in 2007 <a href="http://www.mannington.com/global/products/environment/neighborhood/riparian.asp">http://www.mannington.com/global/products/environment/neighborhood/riparian.asp</a>
Mannington Twp	15871	MANNINGTON MILLS INC	75 MANNINGTON MILLS RD, & RT 45 MANNINGTON TWP, NJ 08079	6/21/2010	Riparian/Shrub-scrub project May and November 2009 with Phase 3 completed in May 2010: Mannington partnered with the NJ Audubon Society, US Fish and Wildlife Service, and the Partnership for the Delaware Estuary to significantly improve a local, Riparian habitat by restoring 12 acres of low grade agricultural land to an improved riparian buffer. By planting this riparian buffer with native trees & shrubs, the area will be established as a shrub-scrub habitat with a life expectancy of over 30 years (eventually succeeding to forest). During the first 30+ years of establishment, the project will provide habitat for bird species of concern: blue-winged warbler, eastern kingbird, brown thrasher, prairie warbler, eastern towhee & field sparrow. Honeybee Project: To help improve the local honeybee population, Mannington Mills is now home to 5 new honeybee colonies. One of Mannington's Associates is an experienced beekeeper and helped establish 5 new hives to the Salem property which hopefully will grow upwards to 10 to 60 thousand bees and ultimately help local farmers within a 2-mile radius to more efficiently pollenate crops and help reestablish a declining honeybee population. Purple martin project: <a href="http://www.mannington.com/global/products/environment/neighborhood/purple-martins.asp">http://www.mannington.com/global/products/environment/neighborhood/purple-martins.asp</a>

Hillsborough Twp	38130	ROYCE BROOK GOLF CLUB	201 HAMILTON RD, HILLSBOROUGH, NJ 08844	1/5/2009	In June 2007 the facility initiated ("Wildlife and Habitat Management" activities to enhance the natural areas and landscaping on the golf course to protect and sustain native habitats and the wildlife that depend on them for survival. Continually expand general knowledge of the plants, wildlife species, and habitats found on the golf course. Improved minimally used and landscaped areas to provide habitat for a variety of wildlife species. Preserve the rich biological diversity of their region by protecting existing native habitats and species, and landscaping primarily with indigenous (native) plants. Project involved protection of 165 acres of woodland habitat and use of native plants in landscaping provide valuable food and habitat for local and migratory wildlife on the property, while also reducing the water, labor and other inputs needed for maintenance and upkeep. On November 26, 2008 Audubon International reported that "Royce Brook Golf Club" had achieved certification in "Wildlife and Habitat Management" to protect endangered/threatened species, plant native vegetation when landscaping, provide extensive habitat along streams and lakes to provide for food and shelter for wildlife, protecting vast acres of wetland and educate golfers about the importance of natural areas.
